## Solar Man Robot Components list is on PAGE 2.

1

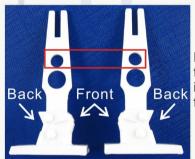

Assemble right arm

Assemble left arm

Please note to verify front and back, the holes Back in red rectangle are for this assembling step.

Install left leg

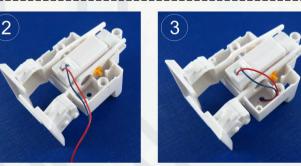

Install right leg

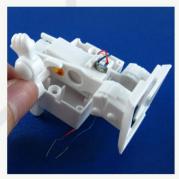

Firstly as picture shown, assemble the top of leg to the shaft of back cover.

Then fix motor and both legs.

Follow the picture, get the motor wire through out of the hole

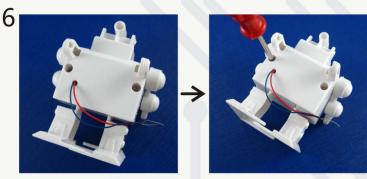

As picture shown, install the right arm to the motor shaft.

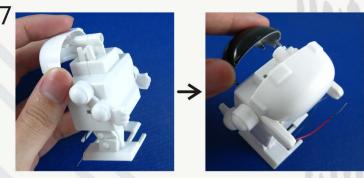

Install he left arm the same as right arm.

Install the front cover.

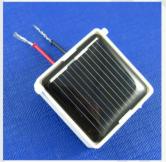

Fix the front and back covers with screws.

Assemble the front and back covers of head.

Install the solar board.

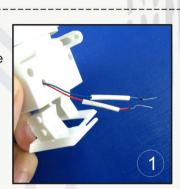

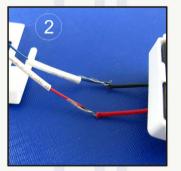

Install the solar part as picture shown.

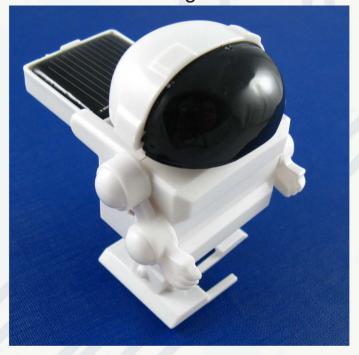

- 1. put the heat shrink on the motor wires.
- 2. connect the motor wires to the solar board.
- 3. Make the the heat shrink on the connecting part for avoiding circuit short.

Assembling finished
